

Sky Factory™

The vastness of the sky inside...

***Illusions of Nature to Transform Healthcare, Retail, Hospitality,
Office, Spa & Wellness, Eldercare, Education, and Residential Interiors***

.....

Sky Factory Luminous Virtual Windows™

Sky Factory Luminous Virtual Windows transform windowless walls into refreshing portals to the natural world.

Unique edge-lighting system allows for a slim design (1.75 inches / 45mm deep) with uniform light distribution.

Several styles of trim that elegantly complete the window illusion are available in cherry, maple, oak, pine, and a contemporary aluminum finish.

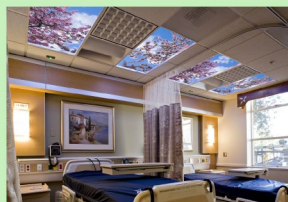

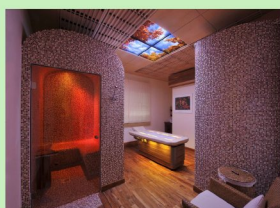

Available in many sizes.

Sky Factory SkyCeilings™

Sky Factory SkyCeilings are authentic illusions of real skies that transform confined interiors into expansive spaces of natural beauty and freshness. Modular and compatible with suspended ceiling systems worldwide, they are available in virtually any size and shape.

More than pretty pictures on the ceiling, Sky Factory SkyCeilings™ replicate the many subtle stimuli of real sky – color, pattern, hue, and viewer perspective. Like an experience of real sky, SkyCeilings trigger a genuine relaxation response leading to an expanded sense of space, comfort, inner stability, and vitality.
